

RAILFUTURE LIST OF REOPENING CAMPAIGN GROUPS, SORTED A-Z

Compiled by Tony Smale for Railfuture [email tony.smale@railfuture.org.uk]

Last updated: Jan 2018

Notes:

- 1 "Reopening Campaign (RoC) groups" are mostly volunteer societies campaigning for line/station opening or reopening on the national rail network. *There are many other line/station candidates for opening or reopening for which I cannot identify a campaign group – let me know if you start one!*
- 2 Some groups are constituted as: ppp (public-private partnership), Cic (Community Interest Company), Ltd (Public Limited Company).
- 3 Not included: groups campaigning to reopen lines as heritage attractions (although some could provide useful transport links); see footnotes.
- 4 See also these Railfuture lists: Rail User Groups A-Z, Rail User Groups Sorted by Region, National & Regional Passenger Bodies.
- 5 If you have trouble contacting a particular group, please ask me via the above email address and I may be able to help.
- 6 Corrections and comments very welcome – please send details to the above email address.
- 7 Inclusion in this list does not imply Railfuture endorsement of the scheme.
- 8 See also footnotes at the end of this list.

Key:

Devon & Cornwall / East Anglia / East Midlands / Lincolnshire / London & South East / North East / North West / Thames Valley / Scotland / Severnside / Yorkshire / Wales / Wessex / West Midlands. UK = nationwide organisation.

- A = affiliated to Railfuture...but note that committee members of some non-affiliated groups are also individual members of Railfuture. L = lapsed

Footnotes:

- 1 In addition to the projects shown above, there are many reopening schemes being promoted by local authorities. Experience shows that residents in favour would be well advised to form a support group, thereby demonstrating community support and involvement.
- 2 Our new guide *EXPANDING THE RAILWAYS* gives information to help local authorities, developers and community groups develop plans for adding new stations and lines to the network. Includes several case studies. See <http://www.railfuture.org.uk/article1745-Expanding-the-Railways>
- 3 Railfuture's book *BRITAIN'S GROWING RAILWAY* lists stations and routes with rail reopening potential. See www.railfuture.org.uk/shop/books.php
